

# OCCUPATIONAL HEALTH AND SAFETY POLICY

---

Foxcrete Concrete Pumping's primary Health and Safety objective is to:

"Achieve and maintain the highest practicable level of Health and Safety control in all areas of the Company's operations."

Occupational Health and Safety of employees, contractors and other persons being affected by concrete pumping operations are of vital importance.

We therefore accept the following:

---

- Risks and Hazards are minimized to prevent any impact on employees, contractors and other parties.
- Adequate precautions are taken to prevent ill health, injuries, incidents and damage to employees, contractors and other parties.
- The provisions of applicable legislation as well as the Health and Safety Management System are complied with.

To achieve these goals it is necessary to:

---

- Train our employees in Occupational Health and Safety operations so as to ensure competence in the workplace and on construction sites, be aware of the potential hazards implicit in their work activities and be aware of their scope of authority in terms of Occupational Health and Safety control.
- Manage Occupational Health and Safety to acceptable standards.
- Strictly enforce Health & Safety measures in the workplace.
- Protect the public and persons other than Company employees from Health and Safety hazards associated with our work.

Responsibilities

---

- Achievement of these objectives is and will be the responsibility of all management structures.
- Duties will further be assigned to Company personnel with the aim of managing Occupational Health and Safety procedures.
- The commitment of management and employees to these objectives will ensure high standards of Occupational Health and Safety control.

---
